

OILLLEAK

BRAND GUIDE

The background is a dark, textured composition of swirling colors in shades of blue, purple, and yellow. A faint, stylized face is visible in the upper right corner, appearing to be part of the background pattern.

CREATiViTY

that

CANNOT

be

CONTAINED

WE ARE DIFFERENT.

In a world obsessed with trends and polished perfection, everything looks the same. Clean. Minimalist. Forgettable. Brands chase relevance by blending in, until all identity disappears into nothingness.

But when everything looks identical, what makes you, YOU? OILLLEAK exists for brands that refuse to disappear into the cycle of endless trend-chasing. We work with identities built on character — bold, fluid, and impossible to ignore.

We don't follow trends.

We MAKE them.

Like OIL to fire, we fuel ideas to create something explosive that cuts through the stillness and normalcy.

While others build for safety, we build for impact. Through culture-first branding, storytelling, and campaigns, we create work that moves through people, and leaves a mark.

Because the brands people remember aren't the most polished. They're the ones that dare to make a scene.

THIS IS US

"OIL" combined with "LEAK" sounds fluid and continuous, reflecting the versatility and fluidity of our ideas.

The extra "L" is a deliberate deviation from convention, forming a distinct wordmark that strings both words together, representing how OILLLEAK connects ideas with ease.

"OIL" represents fluidity and ignition.

"LEAK" represents unstoppable creative overflow that seeps into the masses.

WHAT WE DO

OILLLEAK is a creative studio that develops bold, culture-driven visual content for brands, artists, and communities

We specialise in creative direction, branding, storytelling, campaign direction, and experimental visual production that blends strategy with raw, cinematic expression.

WE WANT YOU

Brands, creators, and organisations looking for bold, unconventional storytelling that makes an impact and stands out from the crowd.

CREATIVITY THAT CANNOT BE CONTAINED.

OIL POWERS THE WORLD.

It fuels movement, heat, light, and progress.

It's the essential force that moves the world forward.

And when light hits, it transforms:

revealing iridescent layers, shifting colours, and depth
that only exists in motion

That is what OILLLEAK believes ideas are.

WE EXIST TO CHALLENGE THE NORM,

pushing ideas beyond convention,

bringing bold visions to the surface.

Just as how OIL LEAKS,

CREATIVITY WAS NEVER MEANT TO BE CONTAINED.

It spreads, evolves, and transforms wherever it flows.

At OILLLEAK, we turn raw ideas into momentum, creating work
that resonates, sparks movements, and rises above the rest.

WE'RE HERE TO IGNITE CHARACTER AND ORIGINALITY
IN A WORLD OF CONFORMITY.

Because OIL always rises to the top,

IMPOSSIBLE TO SUPPRESS,

AND IMPOSSIBLE TO IGNORE.

WE ARE

BOLD

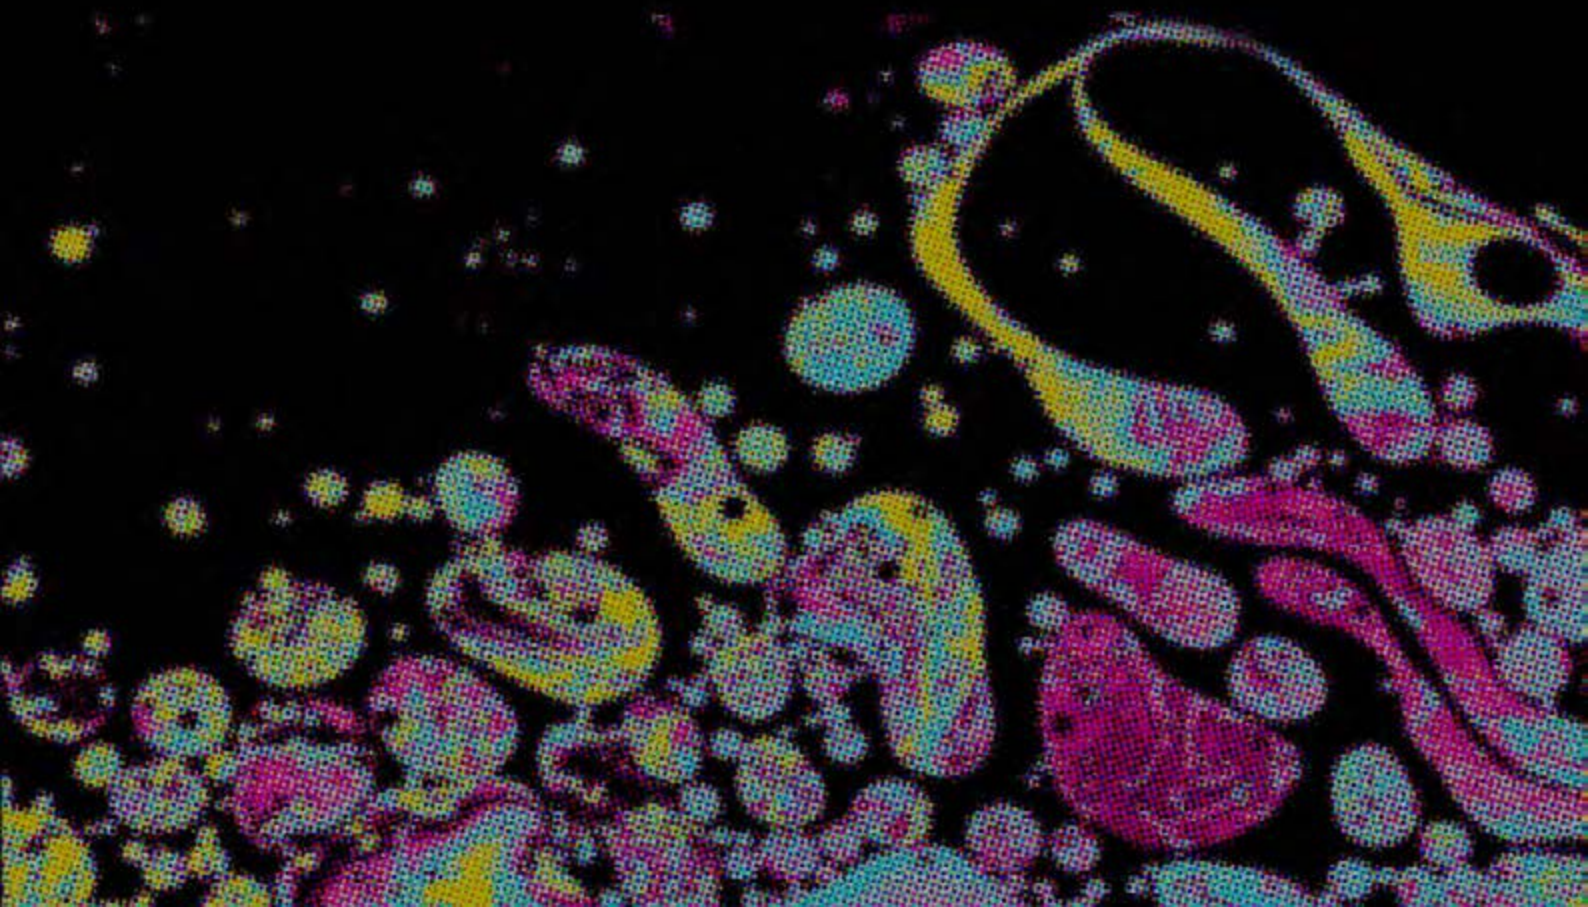

We don't dilute ideas to fit expectations. OILLLEAK creates strong identities, fearless ideas, and brands unafraid to take up space.

ENERGETIC

We ignite work with momentum and intensity. Like OIL, we create fire.

INVENTIVE

OILLLEAK embraces the unconventional, venturing into uncharted territories, creating explosive ideas that redefine what's possible.

OIL IS FLAMMABLE.

We ignite ideas

OIL IS IMMISCIBLE.

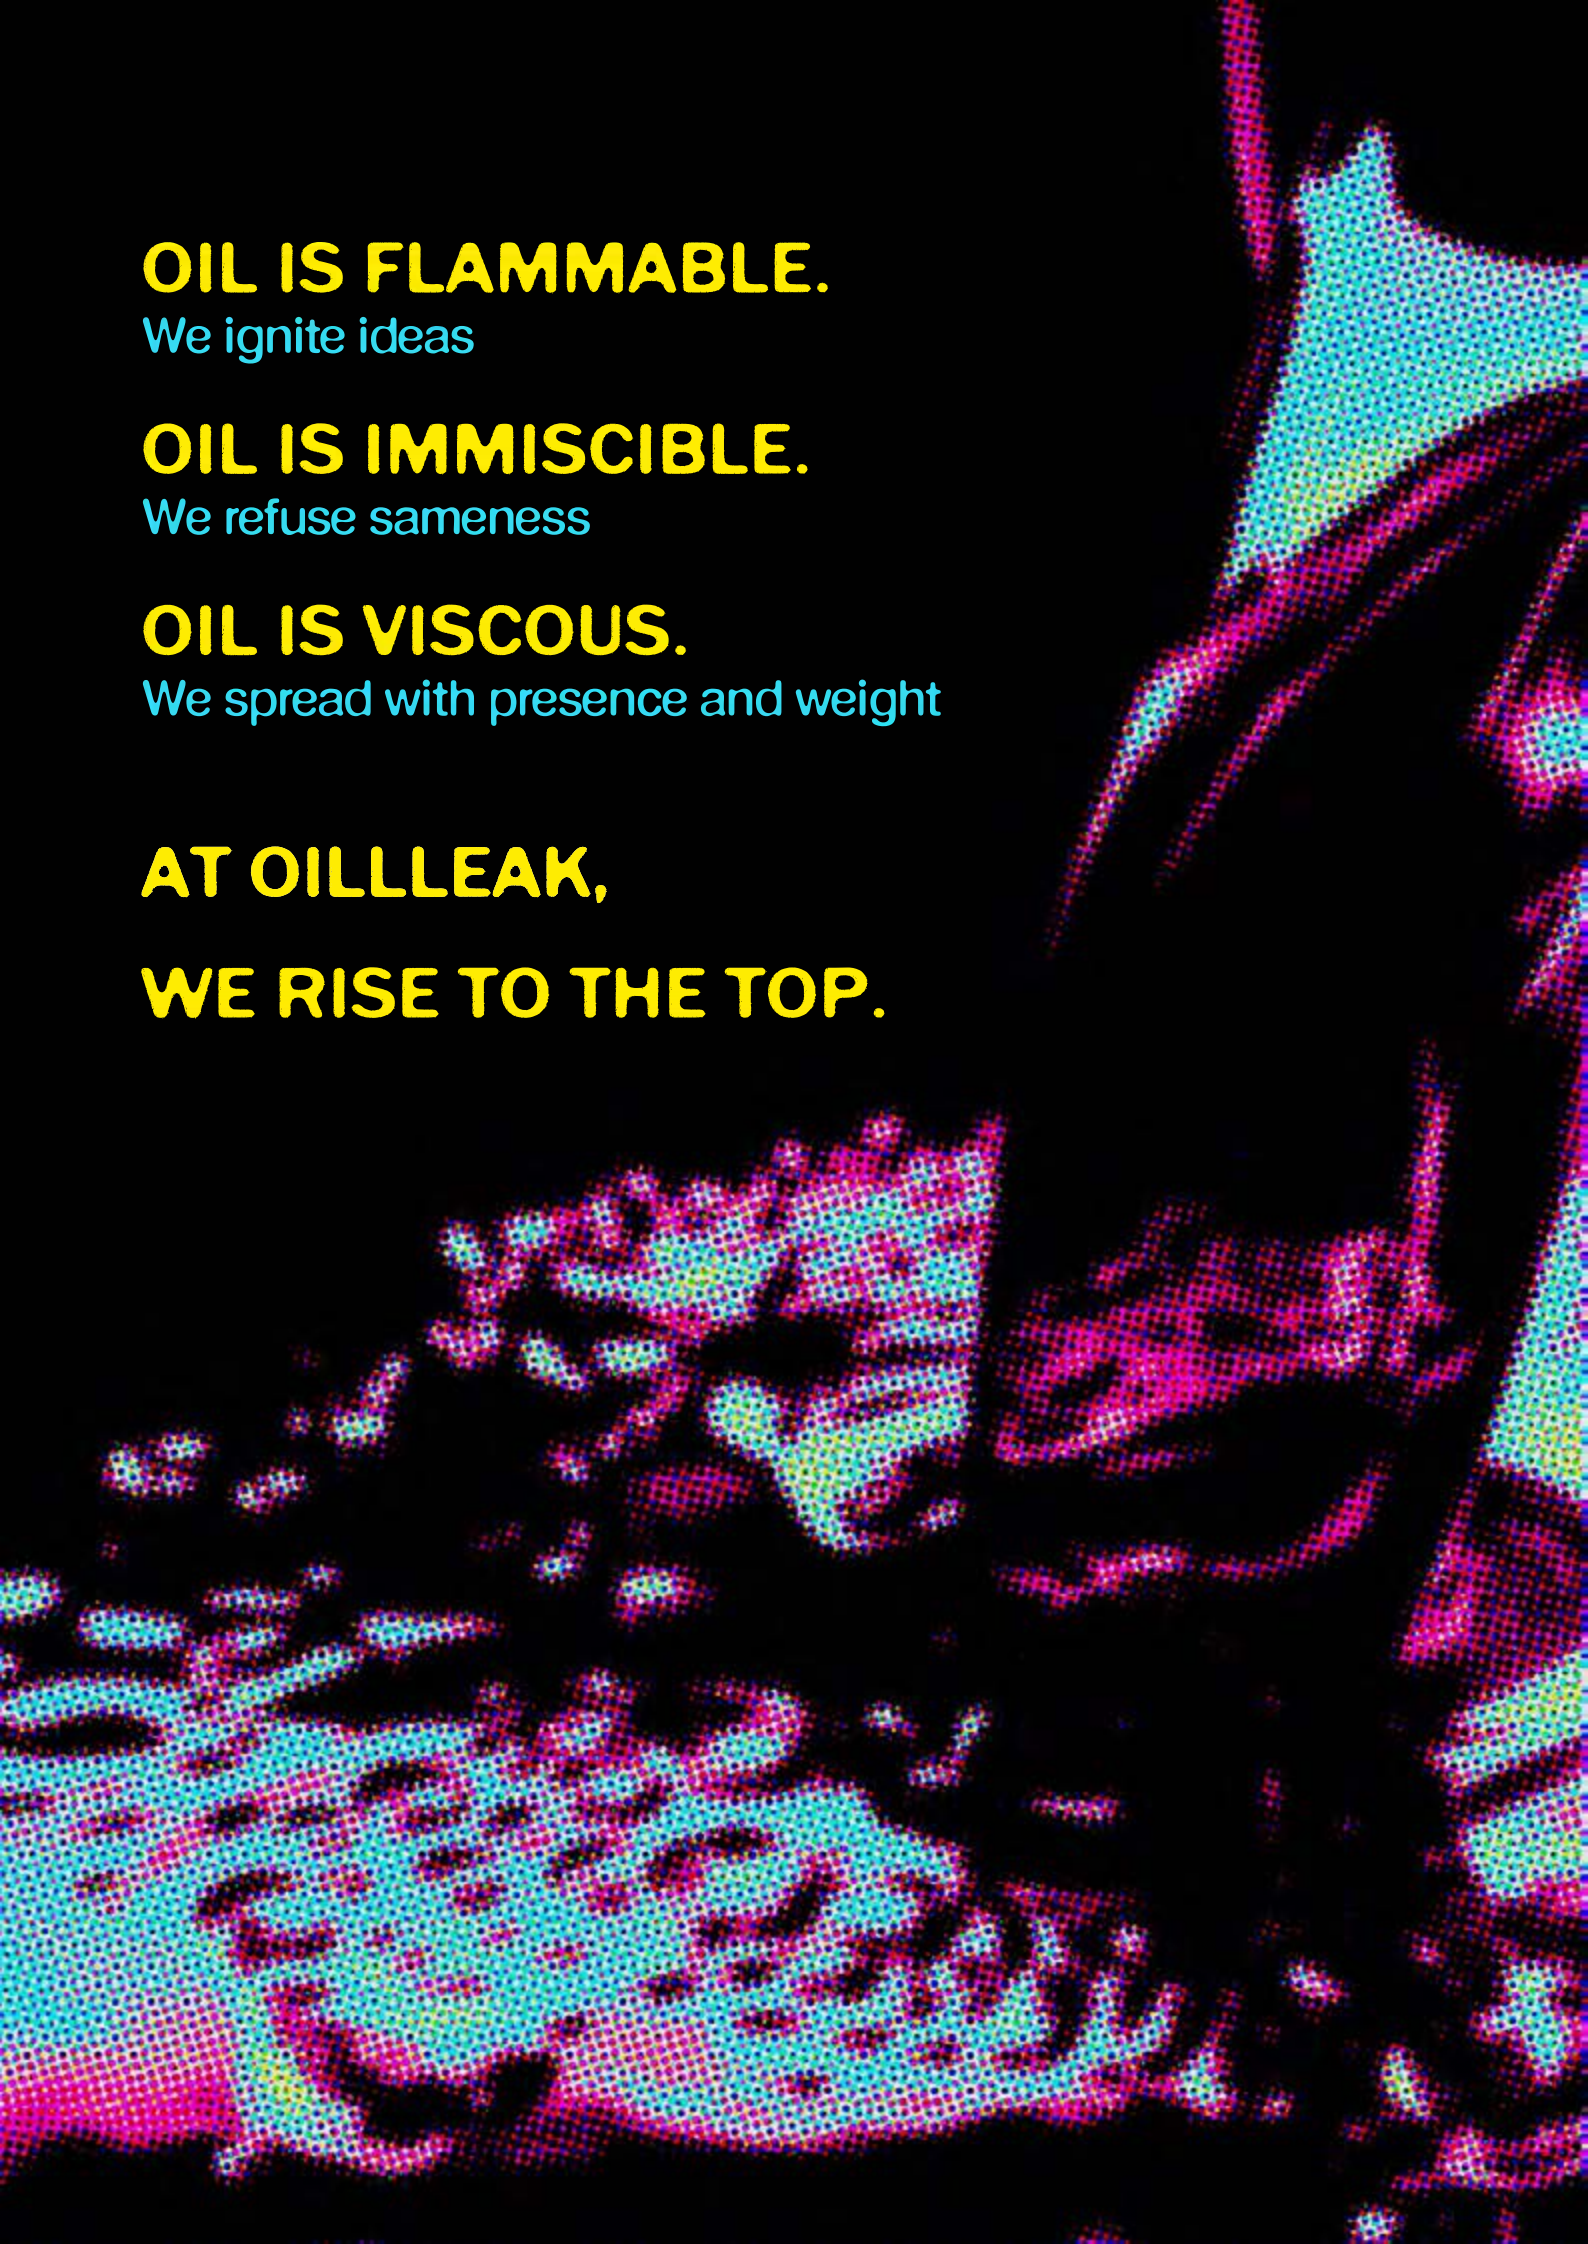

We refuse sameness

OIL IS VISCOUS.

We spread with presence and weight

AT OILLLEAK,

WE RISE TO THE TOP.

LOGO

The logo represents the dynamic form of an oil splatter, representing oil breaking through containment and overflowing beyond its boundaries.

This reflects OILLLEAK's core idea of creativity that cannot be contained, as an overflow of ideas, movement, and energy.

The vibrant gradient used in the logotype represents fluidity, and the constant evolution of ideas that spread, blend, and transform.

The splatter form features outward spikes with softened edges, balancing intensity with ease.

These outward extensions symbolise the limitless ideas flowing from OILLLEAK and into new territories.

COLOUR PALETTE

#000000

#FDOCA4

#34DBF2

#FFED00

The colour palette draws inspiration from the iridescent hues found in an oil spill, where cyan, magenta, yellow, and black emerge as foundational tones beneath shifting light and movement. These colours are distinct from each other, yet are able to blend together in harmony, resembling OILLLEAK's position as being unconventional, yet still easy to connect with.

These colours interact, overlap, and transform into endless variations, reflecting OILLLEAK's belief that bold ideas evolve from a strong foundation into limitless creative possibilities.

The subtractive nature of CMYK also mirrors the brand's desire to strip away conformity, and reveal depth, character, and originality beneath the surface

Bold, saturated, and high in contrast, the palette embodies OILLLEAK's energetic and bold personality that is impossible to ignore

TYPOGRAPHY

LOGO FONT: LEDLIGHT

ABCDEFGHIJKLMNOPQRSTUVWXYZ

LEDLIGHT was chosen for the logo due to its unconventional structure and halftone detailing, which gives the typography a textured and slightly eroded appearance.

This reflects the brand's raw and unpolished personality while still maintaining a bold visual presence

HEADER FONT: TOMORROW COMES TODAY

ABCDEFGHIJKLMNOPQRSTUVWXYZ

Tomorrow Comes Today was chosen for its subtle distressing and rounded corners. Sharp corners were intentionally avoided to reflect the fluidity and movement associated with OILLLEAK's visual identity and creative approach.

BODY FONT: DeFonte Reduced Normale

ABCDEFGHIJKLMNOPQRSTUVWXYZ

Defonte Reduced Normale was chosen for its balance between legibility and texture. Its slightly worn appearance complements the overall aesthetic while remaining functional across longer blocks of text.

IMAGERY STYLE

OILLLEAK's visual language is inspired by the beauty of oil spills, where darkness becomes a surface for bright colours, movement, and light.

Deep blacks contrast with vibrant tones to create bold and attention-grabbing visuals that stand out against conventional, neutral colour schemes.

The aesthetic embraces a punk, urban, energy built on grit and texture, rather than polished minimalism.

This reflects OILLLEAK's purpose to forge their own creative path, undefined by conventions. In contrast to flat digital aesthetics, halftone patterns were used to mimic the way oil reacts under light: layered and shifting in depth and intensity.

Like oil that never fully blends with other liquids, the use of halftone reflects separation and individuality within the visual system.

While it resists full integration, it still forms an engaging and visually appealing whole, showing how contrast and uniqueness can be appreciated by a wider audience.

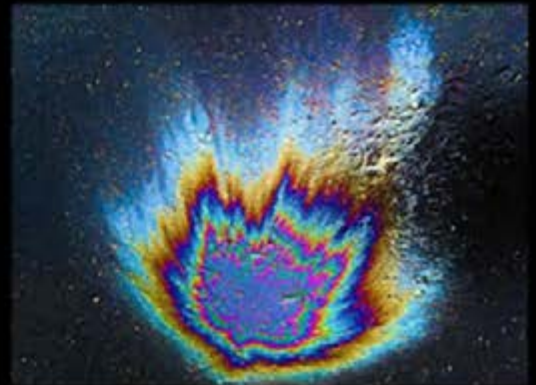

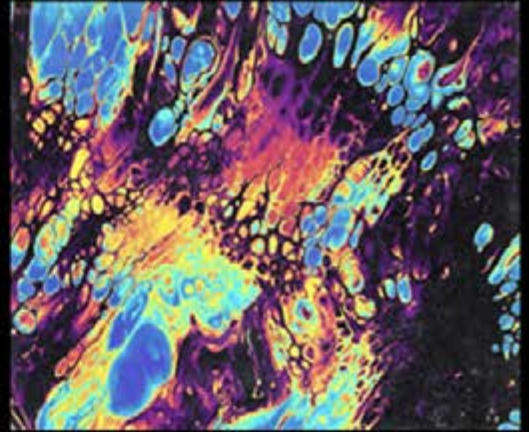

IMAGERY STYLE

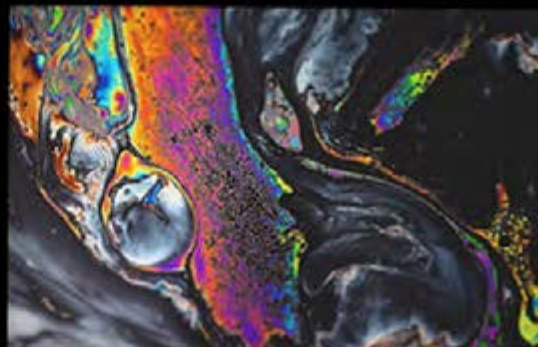

A psychedelic direction was inspired by the colours and distortions found in oil under light. With shifting gradients and fluid movement, they reflect the unpredictable and transformative nature of creativity.

These elements create a surreal, energetic, and immersive visual experience that feels otherworldly, breaking away from typical branding,

They reflect OILLLEAK's break from conventionality, grounded in its belief that ideas that cannot be contained.

Flowy, rounded shapes were chosen over sharp or straight edges to resemble the fluid movement of OIL, but also to soften the design to look approachable and accessible.

From afar, the visuals feel striking and immediate. Up close, they reveal texture, variation, and complexity.

BRAND BOARD

BRAND OVERVIEW

"IGNITING IDEAS IMPOSSIBLE TO IGNORE"

OILLLEAK stands for unbounded creativity and challenging the norm, to create ideas that hit hard.

WHY THE DESIGN DECISIONS WERE MADE

The design decisions were guided by the core idea of igniting creativity and uncovering beauty within the unexpected.

Inspired by the visuals of oil spills, the identity combines deep blacks with vibrant colours to create strong contrast, intensity, and visual impact. Like the ever-changing patterns of an oil spill that can never be replicated exactly, the brand embraces uniqueness and individuality within its visual identity.

Halftone textures and distressed typography were used to give the visuals a tactile quality, reflecting the raw energy and movement that defines OILLLEAK.

Rounded and fluid shapes were chosen to resemble the shape and fluidity of oil, while making the brand feel welcoming and accessible.

HOW THE STRATEGY INFORMS IDENTITY

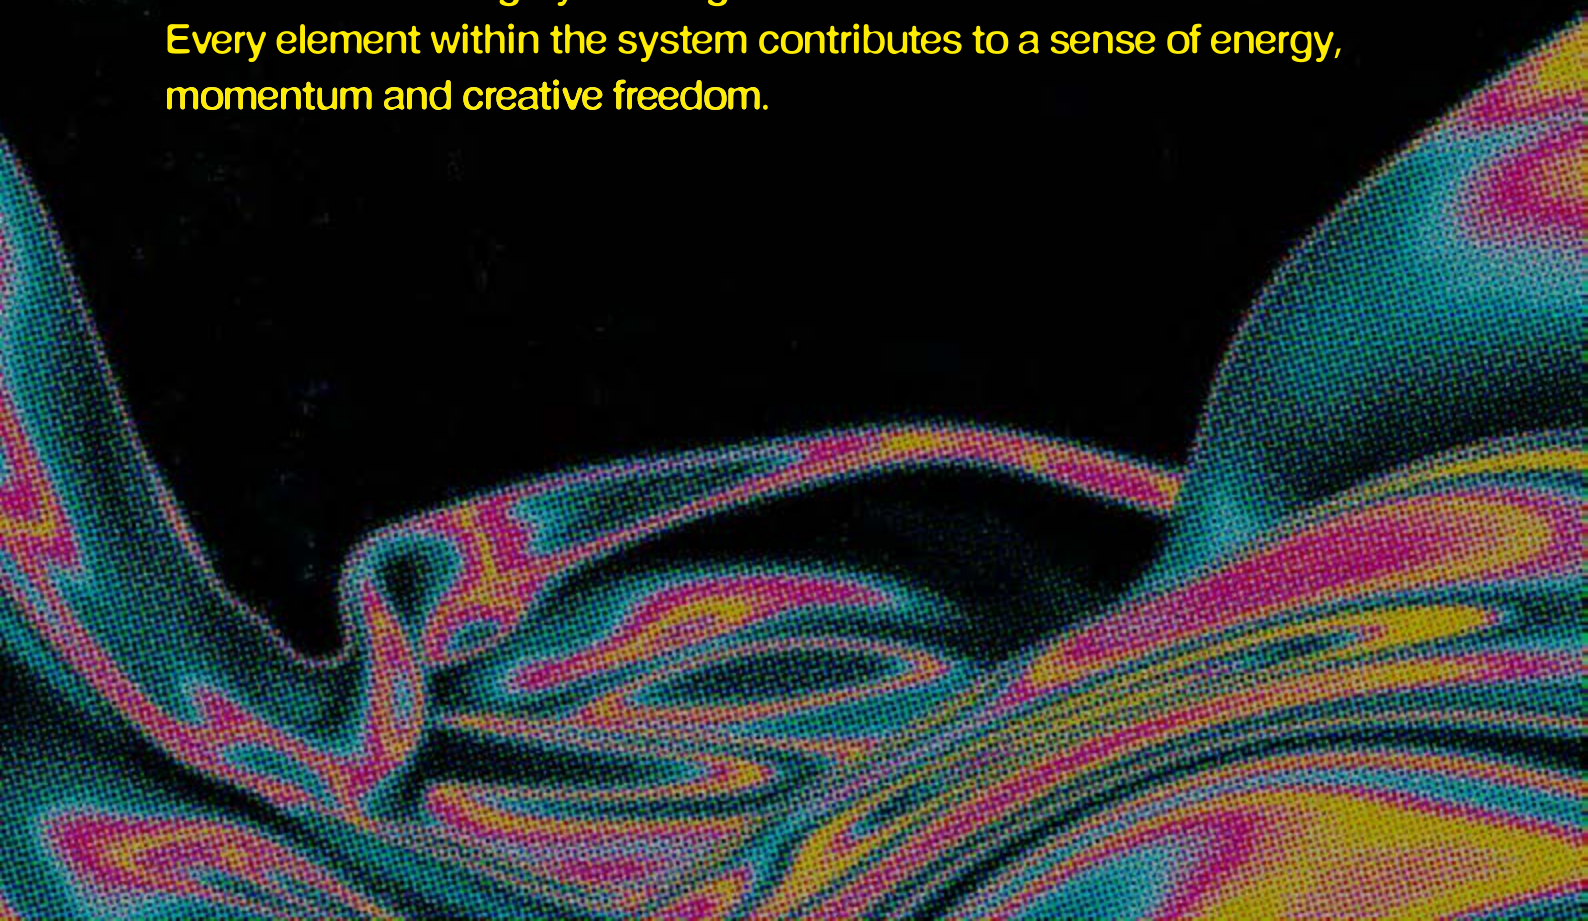

The strategy centres around igniting individuality, experimentation, and self-expression within a visually saturated digital landscape.

Instead of following clean and conventional minimalistic aesthetics, the identity was designed to feel bold, different, and alive .

The use of texture and contrast reflects the brand's intention to spark attention, challenge uniformity, and encourage creative exploration.

Even with the verbal identity, OILLLEAK avoids conventional language in favour of a more direct and distinctive tone of voice. Section headers were intentionally renamed to communicate our values of individuality and nonconformity.

Down to the brand name, OILLLEAK immediately captures attention and strikes thinking by sticking out from the crowd. Every element within the system contributes to a sense of energy, momentum and creative freedom.

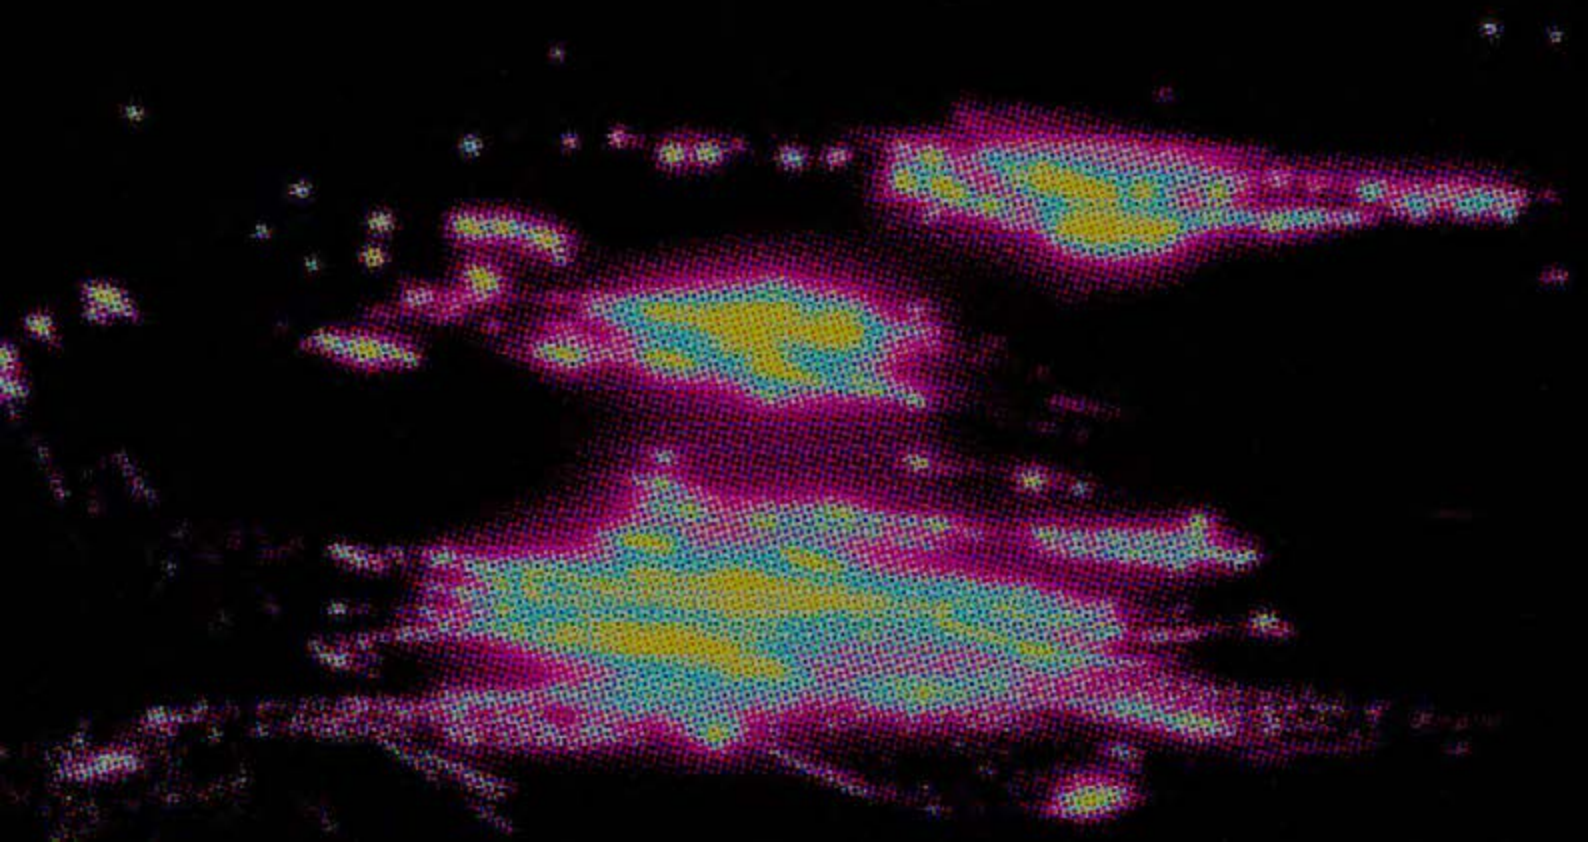

HOW THE SYSTEM WORKS AS A WHOLE

The identity system works through the use of contrast, texture, and depth. Vibrant colours against dark surfaces create an illuminated effect that immediately draws attention.

Halftone texture and distressed typography add raw and unique visual interest that keeps eyes lingering.

This boldness and energy is reflected in the verbal elements, including the tone of voice, taglines, and unconventional section headers where OILLLEAK communicates with confidence and individuality.

Each element feels expressive and individualistic, yet they work cohesively to create a visual system that feels energetic, immersive, and constantly in motion, capturing the idea of creativity being ignited, uncontained and spreading outward.
