08	Phygital Journey Map
09	Refinements
10	Experience demonstration

01 Stage 1 – Discover the Product

- Explore handcrafted products displayed at the pop-up.
- Learn about each product's materials, purpose, and craftsmanship.
- Earn a digital stamp after completing the experience

02 Stage 2 – Meet the Artisan

- Read stories introducing the artisan who created the product.
- Learn about their techniques, inspiration, and personal journey.
- Earn a digital stamp after completing the experience.

03 Stage 3 – Explore the Culture

- Discover the cultural traditions, history, and significance behind the craft.
- Complete the final learning experience and receive the last digital stamp.

Proposal Overview

Experience Heritage is a phygital pop-up experience held at polytechnics that combines physical product exploration with digital storytelling.

Opportunity

The Problem

Although Heritage Bay offers authentic handcrafted products with rich cultural stories, many younger consumers are unfamiliar with the artisans and traditions behind them.

As a result, they often perceive the products as decorative items rather than meaningful pieces of cultural heritage.

Traditional retail displays provide limited opportunities for deeper engagement, making it difficult for Heritage

Bay to communicate its mission of preserving craftsmanship and supporting artisan communities.

Opportunity

Our proposed solution

Create an engaging experience that allows users to discover:

the product

the artisan

the cultural heritage

before making a purchase.

This transforms customers from passive shoppers into active participants.

Why this direction?

Our proposal builds upon Assignment 2 by expanding an individual mobile experience into a complete phygital ecosystem.

Instead of relying solely on a mobile application, users now interact with Heritage Bay through a physical campus pop-up supported by digital storytelling and a companion mobile app.

This creates a seamless customer journey that begins offline and continues online, extending engagement beyond a single visit.

Values and Justification

Value for Heritage Bay

- Increases brand awareness among younger audiences through campus activations.
- Encourages meaningful engagement instead of passive product browsing.
- Highlights Heritage Bay's mission of preserving artisan craftsmanship and cultural heritage.
- Drives both immediate purchases at the pop-up and future online sales through the mobile app.
- Builds long-term customer relationships through user accounts and continued engagement.

Value for Website Users

- Learn the stories behind each handcrafted product instead of only seeing the final item.
- Develop a deeper appreciation for the artisans and cultures represented.
- Enjoy an engaging, gamified experience through collecting digital stamps.
- Receive tangible rewards for completing the experience.
- Continue discovering new artisans and products through the Heritage Bay Website

Phygital Journey Map

	Entry	Discovery	Interaction	Extension	Exit
User Actions	Notices the Heritage Bay pop-up on campus. Scans the QR code to begin the experience.	Explores the product display and learns about Heritage Bay's handcrafted products.	Completes the three interactive stations (Product → Artisan → Culture) while collecting digital motif stamps.	Returns to the product display to redeem the completed. Creates an account to save rewards.	Redeems the discount immediately at the pop-up or saves on website for future online purchases.
Physical Touchpoints	Pop-up booth, entrance banner, QR poster	Product display, product labels, physical products	Projection boards, audio storytelling, interactive displays	Redemption counter, staff assistance	Product checkout counter, packaging
Digital Touchpoints	Landing page on website	Mobile website, QR scanner	Storytelling pages, audio, digital Craft Passport, motif tracker	Reward screen, account registration, Heritage Bay app	Saved discount wallet, online store, purchase confirmation
Customer Thoughts	"This looks interesting. I wonder what this is about?"	"These products are beautiful, but who actually made them?"	"Now I understand why these products are unique and worth the price."	"Nice, I earned a reward after learning something."	"I'll save this discount and come back when I want to buy something."
Customer Feelings	😊 Curious	🤔 Interested	😄 Engaged	😁 Rewarded	❤️ Connected to the brand
Pain Points Solved	Young consumers may walk past without knowing Heritage Bay.	Customers normally only see products without understanding their stories.	Traditional shopping rarely explains the artisan or cultural significance behind	Most retail experiences end after browsing.	Discounts are often forgotten or lost after an event.
Opportunities	Attract attention through an interactive campus activation.	Encourage product discovery before purchasing.	Create an immersive educational experience through storytelling and gamification.	Continue engagement through rewards and the mobile app.	Encourage repeat purchases both online and in-store while building long-term

Customer Thoughts	"Now I understand why these products are unique and worth the price, I can see why and understand without doing much”	"Nice, I earned a reward after learning something."	"I'll save this discount and come back when I want to buy something."
Customer Feelings	🌟 Engaged	😊 Rewarded	❤ Connected to the brand
Pain Points Solved	Just reading plain paragraphs and explanations which might bore, but engaging with customer visually and emotionally.	Most retail experiences end after browsing.	Discounts are often forgotten or lost after an event.
Opportunities	Create an immersive educational experience through storytelling and gamification.	Continue engagement through	Encourage repeat purchases both online and in-store while building long-term loyalty.

Refinement

Compared to Assignment 2, the prototype has been expanded into a more complete customer experience.

New Features:

- Interactive onboarding
- QR code scanning
- Product information pages
- Artisan storytelling pages
- Culture exploration
- Reward redemption
- Heritage Bay account creation
- Saved discount
- Online shopping integration

Experience Demonstration Flow

Thank you
