

[DEFINE] YOUR BATIK

AGENDA

1. **Opportunities identified from Assignment 2**
2. **Our Proposed Experience & Insights that led to our Proposal**
3. **Value of our proposal direction**
4. **Phygital Journey Map**
5. **Experience Demonstration**
6. **Experience Summary**
7. **Prototype Refinement**

OPPORTUNITIES IDENTIFIED FROM ASSIGNMENT 2

Little emotional appeal to customers, no personal connection to choose Heritage Bay products

This is due to:

- **Limited cultural engagement:** Missed opportunities in current touchpoints like website and pop-ups to deeply explore the artistry and heritage behind batik motifs.
- **Lack of styling knowledge:** Practical knowledge gaps regarding how to style batik seamlessly into their modern wardrobes.
- **Weak community loyalty:** Lack of community-driven platforms like membership apps and incentivized membership engagement through loyalty programmes.

OUR PROPOSED EXPERIENCE

[Define] Your Batik

At [Define] Your Batik, we have designed a step-by-step experience that allows Heritage Bay to **connect with their target audience, youth and young adults.**

Our goal is to allow customers to see Heritage Bay products as a **meaningful fashion choice**, not just a piece of clothing.

We believe that **every customer's connection to Heritage Bay varies** and we want to ensure they can **find their connection** within the curated booths.

Whether it be cultural significance, product customization, styling or joining the community, we want all customers to walk out from the experience having found their **defining factor** of **why they should purchase Heritage Bay's products.**

HOW OUR PROPOSAL BUILDS UPON INSIGHTS FROM ASSIGNMENT 2

- Booth 1: [Behind] Your Batik helps visitors **gain an appreciation** for batik craftsmanship and its rich heritage.
- Booth 2: [Design] Your Batik encourages the **customisation of batik patches**, whether it be through physically designing or seeing how others design theirs in a community gallery.
- Booth 3: [Wear] Your Batik **addresses styling queries** through an AI tool that helps customers try-on Heritage Bay products with modern outfit pairings, making batik accessible for daily wear.
- At the end of the experience, customers should have **established a connection** with the brand and the product, having a **strong incentive** to **purchase their preferred product** and **join the community**

WHY OUR DIRECTION DELIVERS VALUE?

For Heritage Bay

- **Brand Relevance:** Strengthens Heritage Bay's appeal to youths by presenting batik through an interactive and digitally engaging brand experience.
- **Increased Conversion & Loyalty:** Encourages product purchase and fosters long-term customer engagement and continued interaction beyond the pop-up.
- **Increased brand awareness:** Creates shareable moments that expand organic reach on social media beyond the pop up.

For Consumers

- **Cultural Connection:** Offers a deeper, more meaningful appreciation of the craft behind what they wear.
- **Styling Confidence:** Empowers users with practical inspiration to make batik a versatile staple in their daily fashion.
- **Belonging & Rewards:** Grants access to exclusive benefits like Trace your Craft, loyalty programmes and builds a stronger sense of community among consumers.

PHYGITAL JOURNEY MAP

Entry

[Discover] your Batik

Digital: View introduction of Heritage Bay, preview of each booth on TV screen

Physical: Staff introducing [Define] Your Batik to customers

Discover

Booth 1: [Behind] your Batik

Cultural Discovery

- Digital: Read about the meaning and purpose behind each batik motif and the batik crafting process through an immersive interface on a display screen
- Physical: Look through the different batik motifs on Heritage Bay products displayed to connect information to the products

Linking back to the whole experience:

- Gives customers a deeper meaning to the product, realising that a lot goes on behind a piece of clothing

Interaction

Booth 2: [Design] your Batik

Interactive Customisation

- Physical: Participate in a batik motif colouring activity
- Digital: Scan and upload finished customised colour batik motif to website and choose to share on social media/live community gallery

Linking back to the whole experience:

- Makes the product feel more personal to the customer, giving them a customization option (switching zipper patches)

PHYGITAL JOURNEY MAP

Extension

Booth 3: [Wear] your Batik

Immersive Styling

- Digital: Using the AI styling tool to try on selected HB products digitally before making your purchase
- Physical: Clothing rack where customers can feel and touch HB products before selecting which to “try on” with the AI styling tool

Linking back to the whole experience:

- Give customers a glimpse of styling the product on themselves, making the product more appealing to them

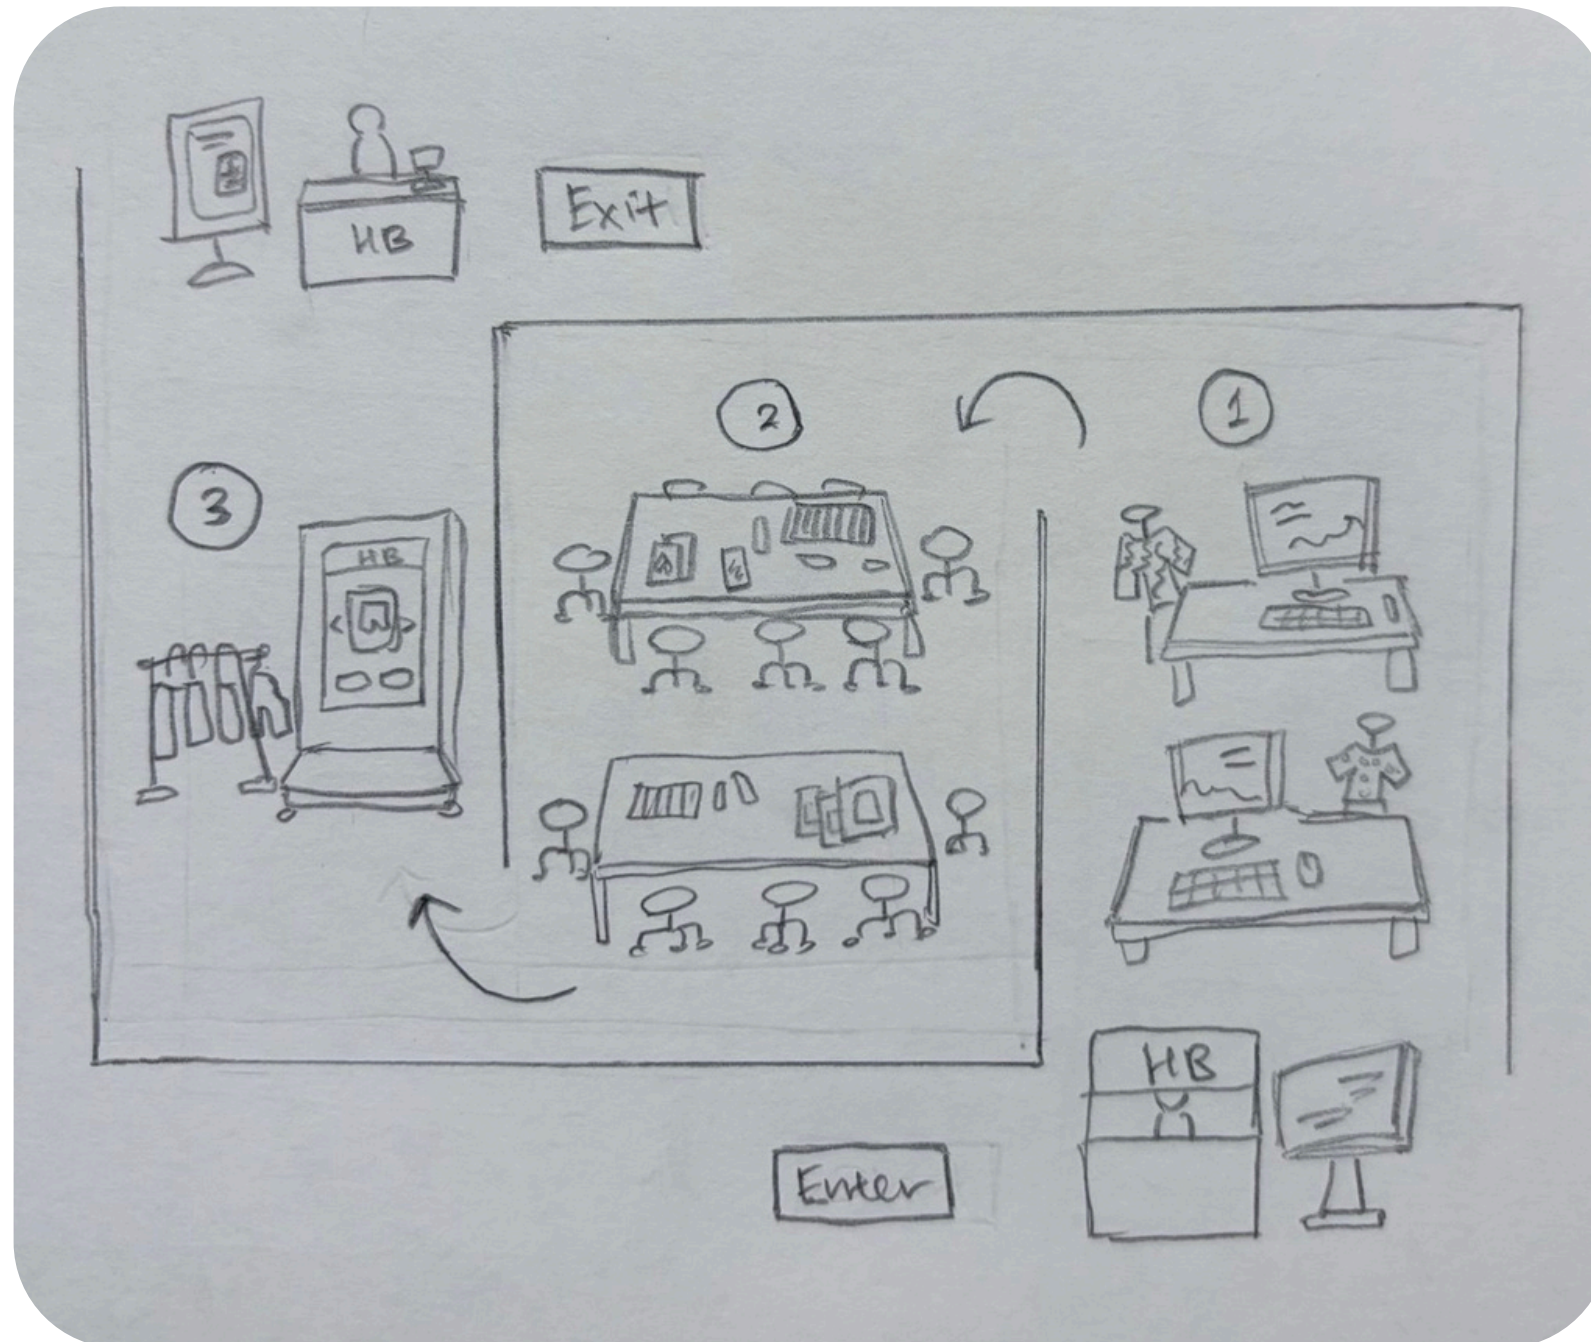

Exit

[Own] your Batik

Digital: HB membership app

Physical: Posters introducing the HB membership app and social media. Visitor receives complimentary Heritage Bay pouch after following Heritage Bay’s social media.

EXPERIENCE DEMONSTRATION

Entry

Introduction and preview of pop-up experience

Booth 1

Behind The Batik - Cultural Discovery (explanation of batik motifs and crafting process)

Booth 2

Design Your Batik - Interactive Customization

Booth 3

Wear Your Batik - Immersive Styling (Digital product try-on using vertical kiosk)

Exit

Membership sign-up and checkout

EXPERIENCE SUMMARY

[DISCOVER] YOUR BATIK

Digital:

- TV prototype with explanations of the brand experience and what will happen at each booth

How the booth works

- **Visitors** to easily understand the overall brand experience, discover what to expect at each booth, and encourage them to share their experience on social media to increase engagement.
- **Outcome:** Visitors gain a clear understanding of the overall Heritage Bay brand experience and what they can explore at each booth, making the pop-up easier to navigate.

[BEHIND] YOUR BATIK

Physical:

- Batik samples
- Samples of Heritage Bay products

Digital:

- IMAC prototype with explanations and graphics of the Batik Craft process
- IMAC prototype with explanations on the origins and meaning of batik, with graphics to show what each batik motif looks like

How the booth works:

- **Visitors** are able to click through the different batik motifs and the stages of the craft process to deepen their understanding of batik. They are able to touch and compare physical batik samples with information from the prototype.
- **Outcome:** The booth connects information on the iMac with physical batik samples and heritage bay products. Visitors are able to see how traditional techniques and motifs are translated into modern clothing, encouraging them to appreciate and wear the story and culture of batik

[BEHIND] YOUR BATIK

Existing Problem:

- Customers may not know the history or significance of the batik they are wearing, may not be willing to search for the heritage of batik motifs
- This creates a gap between the cultural value of the product and the customer's understanding of what they are wearing.

SOLUTION: [Behind] Your Batik!

- Provide customers with information about the significance of batik motifs and the craft process of batik.

[DESIGN] YOUR BATIK

Physical:

- Printed batik motif colouring sheets (from Heritage Bay's existing batik patches)
- A1 poster introducing the booth and providing a step-by-step guide of the customisation process.

Digital:

- Mobile phone prototype demonstrating the upload, preview of the digitised patch on selected HERIBA Studio products, uploading to live community gallery and allowing visitors to save and share their customised batik creation.
- iMac prototype showcasing the Live Community Gallery of visitors' uploaded motifs

How the booth works:

- **Visitors** begin by colouring batik sheets, taking a picture and uploading their completed motif on the mobile interface, choosing a product to preview their design on and save or share their personalised digital keepsake.
- The iMac Live Community Gallery allows visitors to view other participants' creations.

[DESIGN] YOUR BATIK

Existing Problem:

- Heritage Bay's current pop-ups have limited hands-on opportunities for visitors to actively engage with and personalise batik.

SOLUTION: Design Your Batik!

- Enables visitors to actively participate in a simplified batik creation process by colouring a physical motif and uploading it digitally, allowing them to step into the role of an artisan.
- Provides a personalised and interactive experience that appeals to Heritage Bay's youth demographic.

[WEAR] YOUR BATIK

Digital:

- An AI styling tool used to help customers discover products that they like and see whether it suits them
- Features a product catalogue with product names for reference
- Built-in camera on the kiosk will be used for photo-taking on the spot

Physical:

- A clothing rack for product reference, allowing customers to touch and feel material of the product before interacting with the kiosk
- It complements with the kiosk since the rack is only for product reference and does not feature every colour and size

How it works:

- Customers can browse through different products offered in the rack and find something they like
- They can interact with the kiosk to digitally try out different products and choose the ones that suits best

[WEAR] YOUR BATIK

Existing Problem:

- Heritage Bay doesn't have a fixed retail store → no fitting room
- Customers may not be able to picture how the product looks/fits on them

SOLUTION: Wear Your Batik!

- Not physically "wear", but DIGITALLY → using AI
- Introduces a unique digital experience for users while helping them discover a product they like (clothing rack at the side for product reference)
- Interactive components: Swipe product catalogue and on-the-spot photo-taking

[OWN] YOUR BATIK

Physical:

- Clothing rack displaying Heritage Bay's products
- Poster encouraging customers to download the HB and sign up to be a Bay Member
- Checkout station with poster encouraging customers to follow Heritage Bay's socials
- Free gifts if customers follow Heritage Bay's socials

Digital:

- HB app

How the booth works:

- Customers can browse through the clothing rack and decide what they want to purchase
- After deciding what to purchase, the HB App poster encourages them to download the app and sign up to be a Bay Member
- The checkout station also has a poster encouraging customers to follow Heritage Bay's socials

[OWN] YOUR BATIK

Existing Problem:

- There is a limited post-purchase experience for Heritage Bay customers
- Heritage Bay's only existing of community platform is the Telegram channel

SOLUTION: Own Your Batik!

- Signing up to be a Bay Member gives customers access to exclusive benefits and features not available to others
- The membership provides a **post-purchase experience** as Bay Members have access to Trace your Craft, allowing them to trace the production of their recent orders, while also collecting points for every purchase through a loyalty system
- The app also includes a feature called "Heritage Bay Community" where Bay Members can check out daily feeds from other customers, allowing members to connect with each other, building a **stronger sense of community** among Heritage Bay customers

PROTOTYPE REFINEMENT

Overall refinements:

- Design is adapted to be consistent throughout booths, sticking with similar colour schemes and motifs throughout the prototypes.

Booth 1: [Behind] your Batik

- Added craft processes information to the prototype
- Made the different motifs and craft processes auto-scrolling instead of manual-scrolling

Booth 2: [Design] your Batik

- Developed a new integrated prototype by combining components from two previous concepts- the AI Styling Tool and the community feed from HB membership app.
- Added a Live Community Gallery to showcase visitors' uploaded batik creations in real time.
- Strengthened the phygital experience by linking physical batik colouring activities with digital product visualisation and social interaction

PROTOTYPE REFINEMENT

Booth 3: [Wear] your Batik

- Kiosk format is adapted from a mobile format from the previous assignment
- Included a brief overview screen for users to understand what to look out for in the experience
- Added a social sharing feature, encouraging users to save the image to post it on their socials with hashtags

Membership & Payment: [Own] your Batik

- Sign-up and login pages lead to two separate flows, and both don't allow empty submissions
- Built the artisans page around Heritage Bay's real, featured artisans instead of invented specialists
- Added a download screen with information about the app
